Alison, when the URLs come in, let's split this up and get it done quickly.

1. I generate deletes for the URLs and submit them in a feed.
2. You search for Best Bets that target any of these pages, make a record, and delete them.
3. You add the URLs to Do-Not-Crawl, in the format ^https://espanol.epa.gov/thispage\$

1. Has to complete before 3., because I can't submit deletes for URLs in the DNC.

This is just a heads up of expected later action today.

This is the Spanish content that we expect to archiving and redirecting later today.

NOTE this is on a URL basis, so we can do the redirects from Drupal, NOT a whole web area basis.

Once we are actually implementing these items, which we believe will be later today, I will let you know when we do the actual archive work so you can work on the search results.

Thanks

Below is a list of Spanish pages that have content similar to what came down Friday.

Please advise.
